- ASP.NET Core

LANGUAGES

- ENGLISH
- URDU

ABOUT ME

I am a skilled ASP.NET developer with expertise in building dynamic and scalable web applications. I aim to contribute effectively to challenging projects while continuously enhancing my technical skills in .NET technologies.

PROJECTS

1. SRC Bus Travel (ASP.NET Core (OOP))

SRC Travel Agencies needs an online booking system for seat tracking and reservations. Customers and employees can book tickets, while admins manage buses, pricing, and staff. The system automates fares, discounts

2. CRUD API & Client App (ASP.NET Core)

Developed a RESTful API in ASP.NET Core for CRUD operations and integrated it into a client app with authentication and validation.

3. Clinic Management (ASP.NET Core)

Admin oversees, Pharmacists manage medicines, Doctors set availability, Receptionists handle appointments, and Users book services.

4. Decor Vista (Laravel)

A platform for booking designers, purchasing decor products, and real-time chat. Designers manage appointments, while admins oversee the system.

5. Shopping Project (Laravel)

An e-commerce application featuring cart management, wishlist, seamless checkout, and order placement. Includes user authorization.

6. Parking Management System (Laravel)

A backend-driven solution for managing vehicle records, including incoming and outgoing logs. Generates detailed reports in PDF format.

7. GYM Management System (Laravel)

A system to manage gym members and staff, their schedules, and group associations. Offers detailed PDF reporting and is exclusively for admin use.

8. Blood Donation System (Laravel)

A platform where users can find blood donors by city and blood group, access donor contact information, and connect directly.

9. NEWS Blog (PHP & Laravel)

10. Fetch JSON Data Using Live API (JavaScript)

11. Safe Bank Account (JavaScript)

A minimalistic banking interface where users can create accounts, deposit and withdraw money, and view account balances in real-time.

12. Wonders of the World (HTML5, CSS, JS, Bootstrap 5)

It presenting the history and details of ancient landmarks.

ACHIEVEMENTS

- [Awarded Student of the Month at Aptech MSG](#)
- Won the DSL 2024 competition at Aptech MSG
- We secure a 10th position in Techwiz 5 Globally
- Runner-up in Web Application Development at Techon Event, Aptech MSG.
